INTRODUCTION

MODERN VISION SOLUTIONS LTD, Since 2017, with its strong commitment to time and quality has engaged qualified and result oriented professionals in different disciplines of Electro-Mechanical, Chill and Interior works. Methodical and gainful approach with rational planning and management controls are key objectives to our style of work and success. Our services include Electro-Mechanical works especially supply & Installation of equipment's machineries & G Pipeline HVAC Solutions, Data-center, Telecommunication Shelters and Containers, Telecom Tower, Tanks, fire protection system, steel structure fabrication, panel boards, HV & LV Cabling and other industrial electrical works.

Modern Vision Solutions Ltd pride we to be a Total IT & Network Technology Provider, offering solutions and services across: Communication, Audiovisual & Transmission, Networking IT & Cybersecurity, Artificial Intelligence Solutions (AI), CCTV Security, Access control system, Public Address systems, Safety & Automation, Digital, Development & Applications.

We work as custom based technology as per the requirements for our customers as needed the different requirements and with different technologies We have the capability to do designing, procure and implementing as MEP Turn-key projects, and supporting/managing the optimal solution based on their needs Our team consists of over 8+ certified and highly experienced, engineers and technicians within the organization with different sector.

Our customer base covers all verticals from Aramco, Government sector, public and private sectors.

VISION

Our vision is based on the creativity of design and contracting staff to provide the best and most updated solutions to the industry thereby fulfilling our strong commitment towards the expectations of our valued customers. We Believe In Quality Of Job Done on Time.

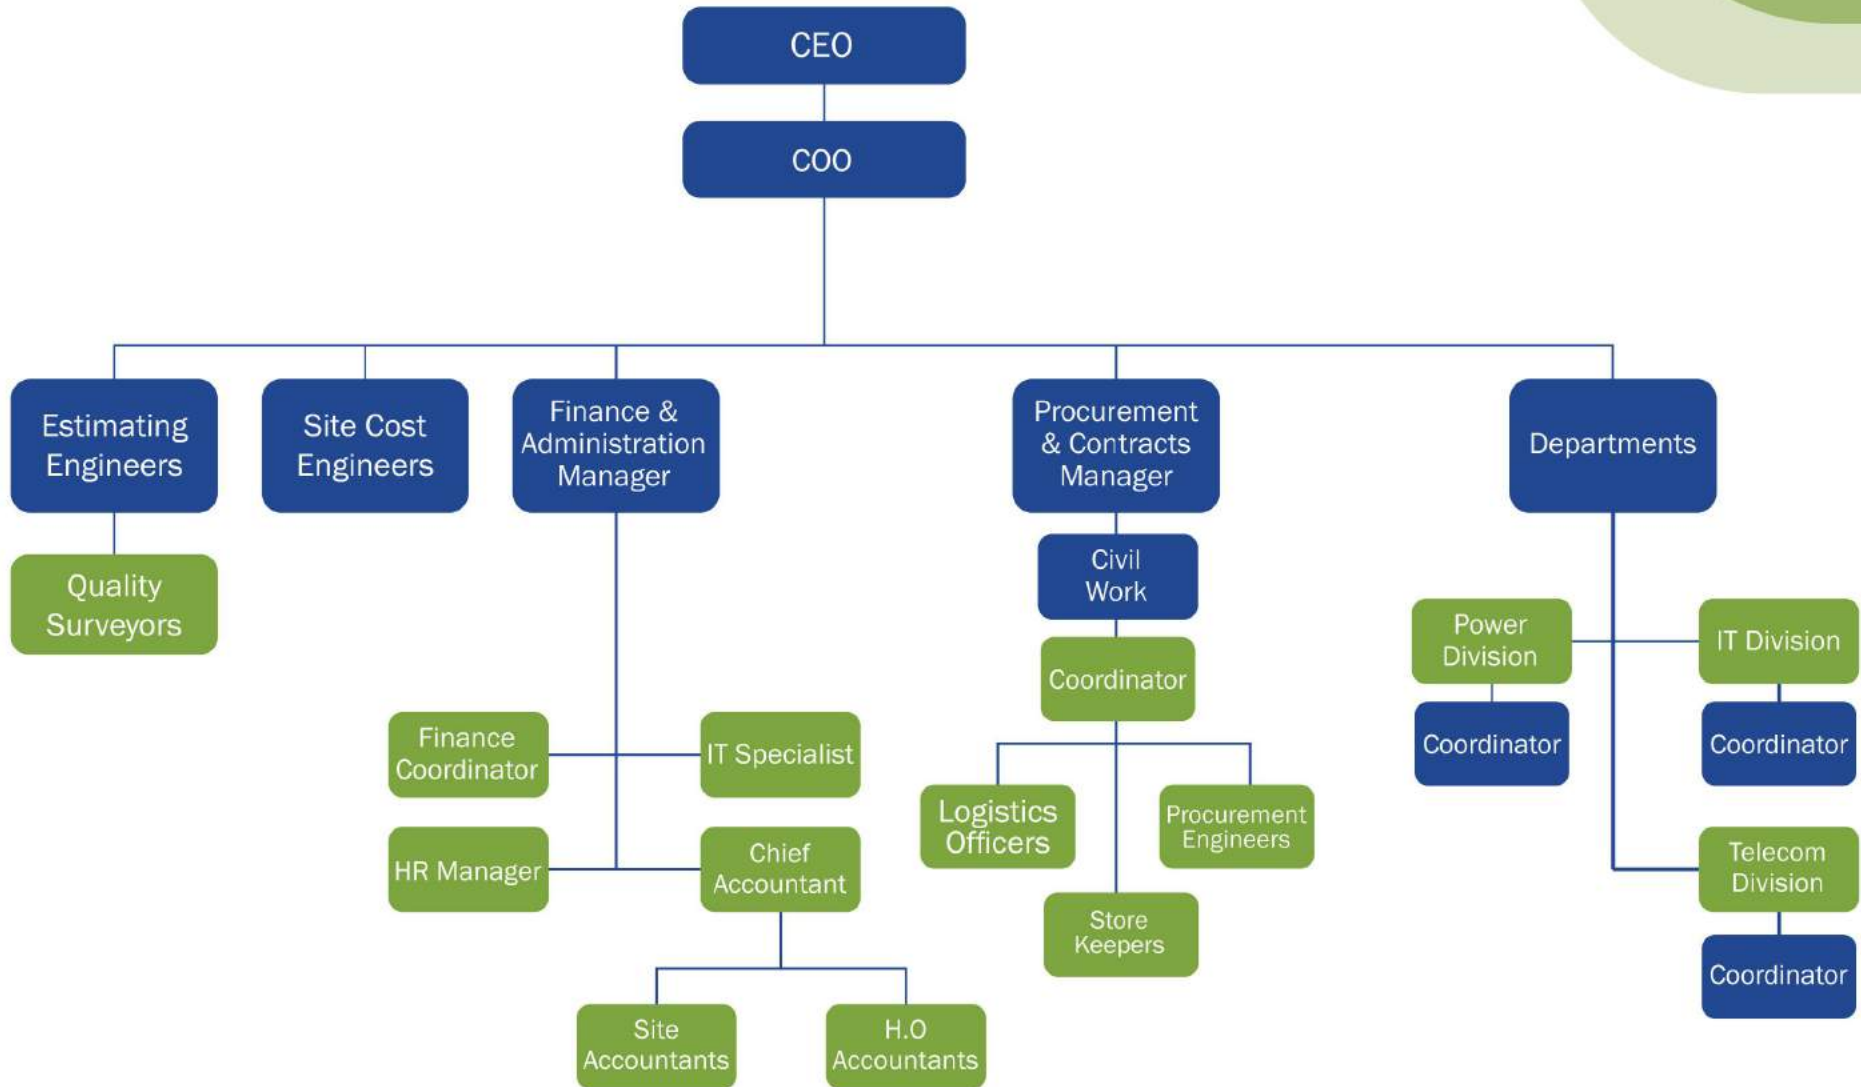

EXPERTISE

We ultimately have the understanding that reflects the customer requirements and needs, that produces the design and contracting industries addressing different cultures and environments.

OVERVIEW

During the past years, we faced several challenges that provided us with the capability to develop our line and be well known through three main sectors of design and contracting. The firm has been involved and accomplished several royal and luxurious projects in Saudi Arabia & UAE.

Audible & Visual
Solutions

01 - MECHANICAL SOLUTIONS

RESIDENTIAL, COMMERCIAL & INDUSTRIAL

- Oil & Gas Piping
- Industrial Piping
- Mechanical Fabrications
- Structural Steel Works
- Industrial Cooling Towers
- Aluminium Cladding Works
- Factory & Warehouse Installations
- Farmhouses
- Heating Ventilation & Air-Conditioning

02 - IT & NETWORKING SOLUTIONS

- Active Work Implementation
- Network Security & Designing
- Wireless Solutions
- Transmission - Indoor / Outdoor Plant Services
- Microwave Transmission Engineering & Services
- Local Area Network (LAN) Design
- Passive Work Implementation
- Datacenter Network Solutions
- Digital Signage
- Smart & Board
- Switching / Routing
- Wireless LAN
- Structured Cabling

03 - ELECTRICAL SOLUTIONS

RESIDENTIAL, COMMERCIAL & INDUSTRIAL

- Total DC Power Solutions
- SLA/VRLs Battery System
- Modular Inverter System
- Total Solar Power System
- Generator Supply & Installation
- Distributions Enclosures
- Shelter Installation
- Out-Door Cabinet (ODC) Installation
- Transformers
- HVAC Solutions
- Packaged Substation Equipment
- Industrial UPS System
- Industrial Batteries
- Switchgears
- Control Panels
- Electrical Turnkey

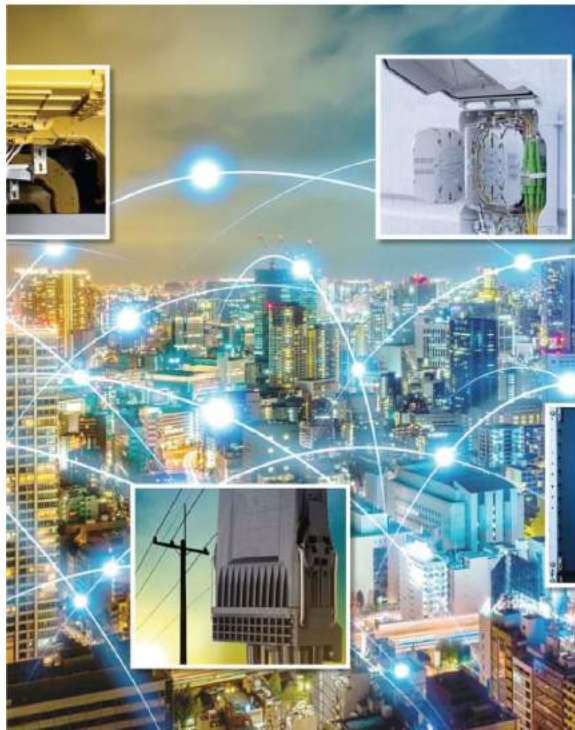

04 - ISP, GSM, OSP

OSP FTTx:

ISP (Installation & Maintenance):

MVS has dedicated splicing teams and can execute multiple Telecom projects simultaneously.

- Termination and splicing using latest splicing Machines.
- Installation of ODB, OSB, FTB, FDT, FAT housing in joint enclosures.
- End-to-end testing of optical fiber using OTDR, Optical power meter, Optical Loss meter.
- Operation & Maintenance

Telecom GSM Site Construction:

MVS has the capability and workforce to execute GSM sites across the Kingdom. We can provide full solution for GSM projects including Civil and Telecom Services.

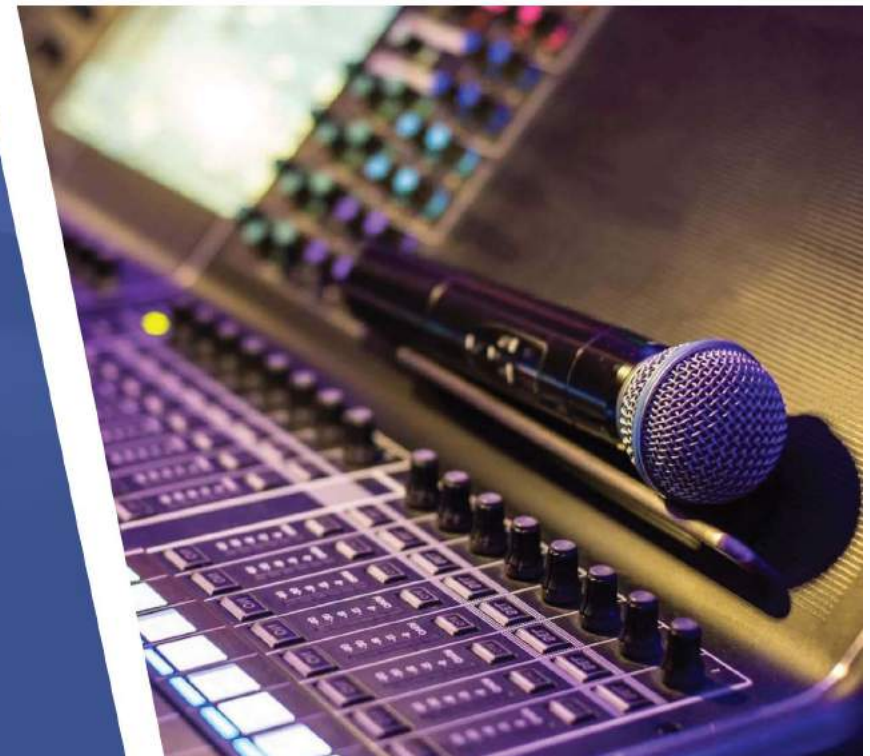

GSM Site Capabilities:

- Site Preparation.
- Implementation of Tower, Shelter and DG Foundation, fencing and other related civil work
- Tower Erection and Painting
- Earthling System for Cell site
- Electrical work

05 - TELECOMMUNICATION SOLUTIONS

- Professional Sound System (LG)
- Public Address System & Background Music
- Satellite Master Antenna Television & IPTV
- Ballroom AV System
- Conference and Interpretation System
- Flat Panel Displays and Video Projection
- Video Wall Systems
- Lighting System
- Automation & Control Systems

06 - SECURITY & AUTOMATION

- CCTV
- Access Control
- IP Telephony System
- GSM Network System
- X-Ray & Walk Through
- Under Vehicle Inspection
- Road Blockers
- Gate Barriers
- Time Attendance
- Parking Management
- Turnstiles
- Mobile Security System
- IP TV Solutions
- Fire Detection
- Fire Fighting
- Public Address / Voice Evacuation
- CBS, BMS
- UPS & Battery Backup
- Lighting Control
- Hotel Room Management System

07 - AUDIBLE & VISUAL SOLUTIONS

- Professional Sound System (LG)
- Public Address System & Background Music
- Satellite Master Antenna Television & IPTV
- Ballroom AV System
- Conference and Interpretation System
- Flat Panel Displays and Video Projection
- Video Wall Systems
- Lighting System
- Automation & Control Systems

OUR PRODUCTS

01

Copper Network
Solutions

04

AC-DC Power Systems

02

Copper Cross
Connection Cabinets

05

Industrial Power
Routers

03

Distribution Rack

06

Portable Test
Instruments

01 - COPPER NETWORK SOLUTIONS

MVS is one of the main Suppliers of copper conductor network products which going from the distributor to the end point at the subscriber. Our range of copper products are suitable for exceptional uses and environments, in particular those resistant.

- Copper Telephone Cables
- Copper Cross connection cabinets
- Distribution rack
- Disconnection modules
- Heat Shrink Closures for Copper Networks

02 - MOBILE NETWORK (RF & MICROWAVE)

We support mobile telecommunications operators by developing cabling solutions adapted to their needs. With our RF solutions, cables and hybrid systems integrating energy conductors and optical fiber, we facilitate and optimize the deployment of future infrastructure networks.

- RF Coaxial Cables
- RF Cable Assemblies
- RF Connectors
- RF Passive Components (Spitters, Tappers, Couplers, Attenuators, Loads).
- DAS Antennas.
- WLAN Antennas

03 - FIBER OPTIC SOLUTIONS

These solutions focus on simplicity, cost-effectiveness and speed of installation, along with the pre- and post-installation customer experience, time to revenue generation and reliable subscriber connections that help to improve profitability for the service provide

1. Fiber Optic Closures
2. Fiber Optic Cables (indoors, outdoors and FTTH Cables)
3. Fiber Optic Passive-components (Patch cords, Pigtails, Adapters, Attenuators etc.)
4. Fiber Optic Rackmount Enclosures.
5. Fiber Optic Wall mount Enclosures.

04 - AC - DC POWER SYSTEMS

Our Group has wide experience in Telecom / Industrial AC & DC Systems solutions from 10AMP to 7000AMP and extended its activities in related electro-mechanical works, such as equipment replacement, live transition of load, telecom and industrial equipment installation, equipment upgradation and spare parts supply.

1- UPS Systems

2- DC Systems (Indoor/Outdoor)

3- Spare parts for most major companies

(Eltek, Delta, Enatel, Emerson, Huawei, ZTE, Beijing Dynamics, Eaton)

4- Telecom Battery

- High Temperature Battery
- Lithium Batteries

05 - INDUSTRIAL POWER ROUTERS

Our Group has wide experience in Telecom / Industrial AC & DC Systems solutions from 10AMP to 7000AMP and extended its activities in related electro-mechanical works, such as equipment replacement, live transition of load, telecom and industrial equipment installation, equipment upgradation and spare parts supply.

1-UPS Systems

2-DC Systems (Indoor/Outdoor)

3- Spare parts for most major companies

(Eltek, Delta, Enatel, Emerson, Huawei, ZTE, Beijing Dynamics, Eaton)
